7 MS. PETERSEN: Hi, I'm Nicole Petersen, and
8 we came in from Las Vegas today. I don't really have
9 anything prepared to say, but I just want you all to
10 know that me and my mom have studied this very hard,
11 and we've researched everything we could possibly get
12 our hands on, and I don't support it at all. I think
13 it shouldn't be coming here. I think Yucca Mountain is
14 a terrible place to put the nuclear waste, and that's
15 pretty much all I have to say. I just wanted to go up
16 and say that. Thank you.
